

# Film Extruder

## Technical Parameters

### General Specifications:

Model: SJ55/55-1000 HDPE ABA Film Extruder

**Roller width:** 1000mm

**Film width:** 500~800mm

**Film thickness:** 0.01~0.08mm

**Output:** 70-90kg/hr;

For the processing of: HDPE, LLDPE

Voltage: 380V 50HZ

Water supply for barrel cooling: 4m<sup>3</sup>/h (25° C, pressure 0.6 MPa)  
(Water is recyclable, and temperature is adjustable.)

Machine dimension: H:6.5m
